Core skills: computer engineering, problem-solving, teamwork, time management, critical thinking, adaptability, initiative

Bitmovin is a global Series-C SaaS scale-up that provides award-winning video streaming technology to world-renowned brands including **Disney+, Discovery+, BBC, Red Bull Media House, Hulu, fuboTV, and The New York Times**, to name just a few.

Our solution suite consists of a Video Encoder, Player, and Analytics platform, enabling content owners to redefine the viewer experience through API-based workflow optimization, fast turnaround, and scalability. Innovations include the first commercial HTML5 MPEG-DASH.

"We are constantly seeking out forward thinking individuals who want to shape the future of video… come and work with us!"

Stefan Lederer, CEO

At **Bitmovin** we value cognitive diversity and the huge part this plays in not only creating a global culture second to none, but in how this underpins our ability to create truly representative, Emmy award winning products. Diversity in all its forms is encouraged and celebrated at Bitmovin; everyone has a role to play in helping us shape the future of video.

Why us?

Bitmovin wants to give students from technical schools like HTL valuable work experience and also support them in writing their diplomas during a paid internship.

We are welcoming students from all backgrounds, however it would be beneficial to have a passion for software engineering and knowledge of fundamentals.

Your Impact

Come and work on a range of cool projects, using state of the art technology, that help shape products used by millions of customers worldwide and a trusted by industry leading players like DAZN, Disney+, F1 You could get involved in:

- Analyzing docker images for optimal sizes
- Finding memory leaks in Java microservices
- Creating a player debugging user interface
- Building a software programmable Smart TV remote

- Testing new CPU architectures
  …. and much more!

Interested?

Upload your **CV, school certificate (Zeugnis), and a motivation letter** with additional information about your expectation about an internship with Bitmovin. Please bear in mind that for internships it makes sense to **stay at least for 2 months** at Bitmovin in order to ensure a good learning experience for you.

We will get back to you with feedback as soon as possible.

PS: We do not have coffee and copy internships. But a lot of free coffee. ;-)

STARTING TIME: Summer 2023
